## ETHNOGRAPHIC APPROACH – LET'S GET TO KNOW EACH OTHER

Within the project “Enhancing Social Cohesion in Host Communities of People on the Move”, implemented by the International Organization for Migration (IOM) in Bosnia and Herzegovina, the lectures “Ethnographic approach - let's get to know each other (part II)” were held on Friday, June 10, 2022, in the Temporary Reception Center "Borići".

Participants marked the meeting as well under the motto of human connection: by learning about resources from their environment, recognizing social systems to which they belong and build, sharing tools through powerful empowerment messages based on current experience and much more, learning about a common language that everyone recognizes – the language of humanity.

Once again, the conclusions support the recognition of common needs and universal human values as a language without barriers that uses different starting positions for understanding, connecting and the opportunity for real acquaintance without prejudices and stereotypes. The opportunity for growth and learning.

Today, the music created by the participants marked not only Borići in Bihać, but also made the World a more beautiful place to live, for every well-meaning person.

The workshop was led by Šejla Bjelopoljak, Assist. Prof., with the active participation of students from the Pedagogical Faculty of the University of Bihać. Almedin Čatić, Jasmin Musić, and Una Ljajić made a special contribution to the realization of the activities.

The project is funded by the EU's Foreign Policy Instruments Service (FPI) under the Instrument Contributing to Stability and Peace (IcSP) and implemented by the International Organization for Migration (IOM) in Bosnia and Herzegovina.
