

“FLOWER ISLANDS IN THE CAMP” – THIRD WORKSHOP

On Saturday, June 18, we held the third workshop in horticulture in the Reception Center “Borići” in Bihać, where people on the move stay. This time, young women from Nepal and India worked with “Women United” Association members to make the Flower Island. In addition to planting beautiful flowers, the diligent participants of the workshop let their imagination run wild and drew flowers, butterflies, a house, a sun, etc. on an unattractive wooden frame for flowers. An overgrown and inconspicuous place was turned into a pleasant place to rest by the diligent hands of women.

This time as well, IOM employees in “Borići” helped to create a flower island, for which we thank them.

It should be noted that the third Horticulture Workshop was realized within the project “Enhancing Social Cohesion in Host Communities of People on the Move” implemented by the International Organization for Migration (IOM) in Bosnia and Herzegovina and funded by the EU’s Foreign Policy Instruments (FPI) under the Instrument Contributing to Stability and Peace (IcSP).
